### You'll Need:

2. Carefully wedge the orange candy in the middle hole of the top doughnuts to make the snowman's nose. You can use the tube of black icing as glue to make it stick.
3. Insert a small green candy in the middle of each of the bottom two doughnuts to make the snowman's buttons. You can use the tube of black icing as glue to make it stick.
4. Carefully apply small dots of black icing on the top doughnuts to make the snowman's eyes and mouth.
5. Last, but not least, the finishing touch! Wrap a fruit strip around the space between the top and middle doughnuts to create a scarf for your snowman.
