

Dwindling Donuts

Materials:

- Donut box template
- Tape
- Plastic wrap
- Powdered Sugar
- Oval-shaped cereal
- Card stock
- Scissors
- Tweezers
- Skewer
- Chocolate chips

Instructions:

- 1.) These compact confections are the perfect size to satisfy your scout elf's sweet tooth, but to hold these tiny donuts, your scout elf will need to create the right size container. To create a donut box, your scout elf will use The Elf on the Shelf® donut box template.
- 2.) After printing the template out on card stock, your scout elf will cut along the solid lines.
- 3.) Placing the printed side down, your scout elf will fold the card stock upwards along the dotted lines, using clear tape to hold the box together at the seams.
- 4.) Just like a normal-sized donut box, your scout elf's box has a place to peak in at the donuts. To make this hole, your scout elf will cut out the square marked "viewing window" and covering it with plastic wrap.
- 5.) To make the donuts, your scout elf uses oval-shaped cereal and melted chocolate chips. In a small bowl, your scout elf melts about 2 tablespoons of semi-sweet chocolate chips or white chocolate chips. In the microwave, melting the chocolate takes about 45 seconds. To prevent burning, your scout elf stirs the chocolate halfway through the cooking time.
- 6.) With tweezers, the cereal is dipped in the chocolate. A skewer is used to push any excess chocolate out of the hole in the cereal. Your scout elf will lay the donuts out until the chocolate hardens.
- 7.) Multicolor donuts can be created by using food coloring, and sprinkles are always a festive donut topper!
- 8.) To make powdered sugar donuts, your scout elf dunks the cereal in water and then rolls it in powdered sugar.
- 9.) After your scout elf arranges the sweets in the box, it's time to taste some of these tiny treats!
