

Magic Seeds of Sweetness

Magic Seeds of Sweetness

Materials:

- Seed package template
- Paper
- Tape
- Scissors
- Magic seeds (they look just like sprinkles!)

Instructions:

- 1.) Candy grows where magic seeds are sown! On one of their return flights from the North Pole, your scout elf will bring some magical North Pole seeds. To carry them, they can print off The Elf on the Shelf® seed packages, cut them out and tape them together.
- 2.) Inside the packet, your scout elf will put the seeds, which look just like rainbow sprinkles! At night, your children can sprinkle the seeds in a cup, pot, or in the backyard and the next morning they'll be delighted to find that full-sized lollipops have sprung up where the seeds were planted!
- 3.) Your scout elf can use his or her magic to turn other items into full-size candies, too, like peppermints that grow into candy canes or chocolate chips that turn into large candy bars!
