Happy Findings

Materials:

- Fortune teller template
- Scissors
- White paper

Instructions:

- 1.) The scout elves won't tell you what you're getting for Christmas, but they can tell you your fortune with this fun origami game! First, they'll print out The Elf on the Shelf® fortune teller template on white paper and cut the square out.
- 2.) Next, your scout elf is going to fold the top right corner down to the bottom left corner and create a crease. Your scout elf will repeat this step, touching the top left corner down to the bottom right corner and creasing it.
- 3.) Then your scout elf will fold the paper in half vertically and create a crease, and fold it in half horizontally and make a crease.
- 4.) With the printed side of the paper facing down, your scout elf will fold each of the corners into the middle of the paper and create a crease, leaving the paper folded in.
- 5.) Your scout elf will flip the paper and repeat this step, once again folding the corners into the center and leaving them there.
- 6.) After folding the paper in half vertically and horizontally one more time, your scout elf has created the perfect-sized fortune teller for you and your friends to enjoy!
