Instructions:

Flying back and forth to the North Pole is a full-time job, and sometimes even Scout Elves need to kick back and relax! To stage a scout elf spa in your home, your elf will:

1. Print and cut out the spa backdrop, cucumber eye pads and rubber duck.
2. Fold the tab of the rubber duck and place it near their serene new scene.
3. Put on the Relaxing Robe and Slippers and a head wrap made from a piece of wash cloth.
4. Sit in the Cheery Chair and balance the cucumber eye pads on his or her eyes.
5. Dip his or her toes into a marshmallow foot bath and take a deep breath!
