

Holiday Hoops

Materials:

- Color printer
- Paper
- Medicine Cup
- Small Orange Balloon
- Scissors
- Tape
- Hole Puncher

Scout Elves at Play™ Tools

- Glacier Grips
- Holiday Harness

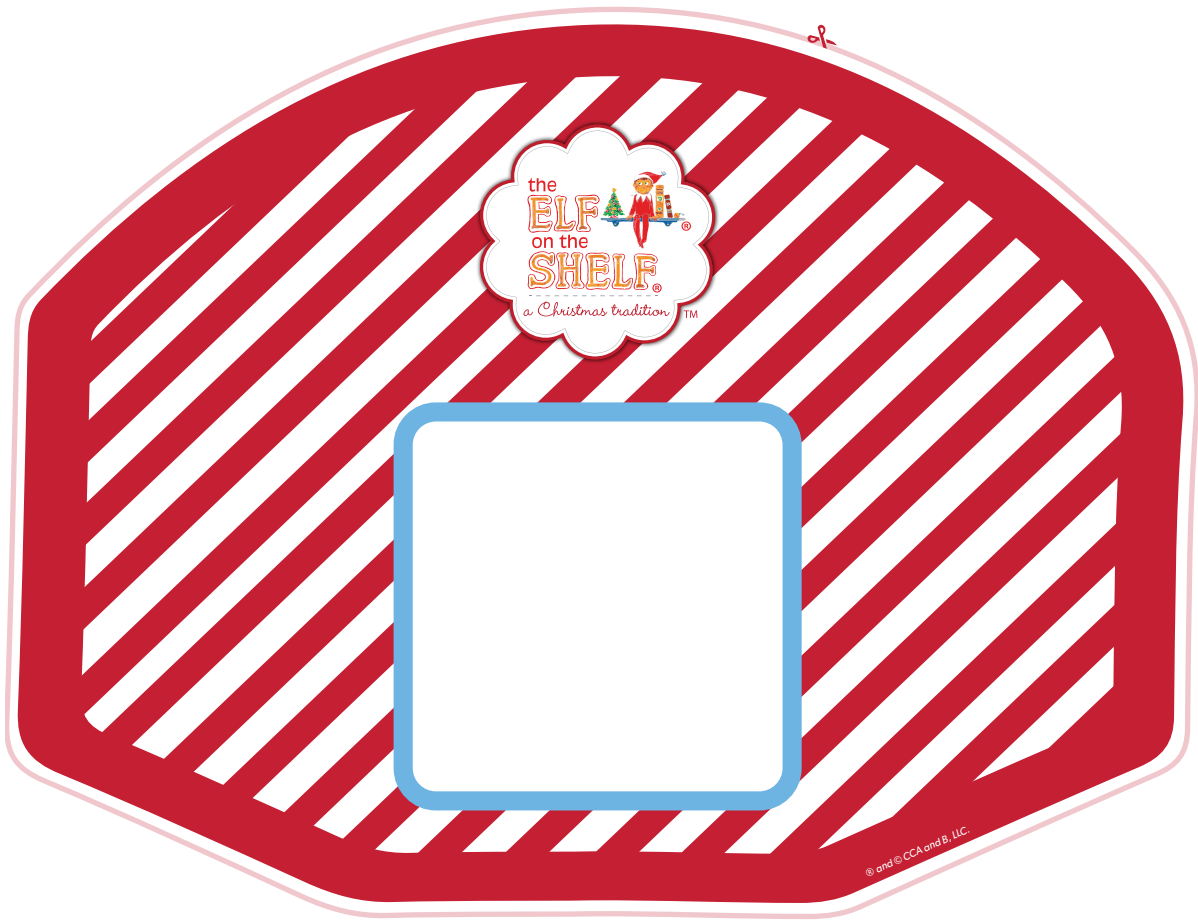

Instructions:

Scout elves are natural high flyers, so it's no wonder that dunking a basketball is a cinch! To demonstrate his or her skills on the court, your scout elf will:

1. Print out the basketball backboard and cut it out along the solid lines.
2. Punch a hole in the top of the backboard
3. Hang the backboard from the Glacier Grip.
4. Use tape to attach a medicine cup to the backboard as a hoop.
5. Blow up a small orange balloon (just large enough to fit into his or her hand) to serve as a ball.
6. Use the Holiday Harness and Glacier Grips to get in the perfect position to dunk! (Helpful hint: the Holiday Harness and Glacier Grips work best on smooth surfaces, like mirrors or tile!)
