

Seasonal Snowflake Wreath

Materials:

- Color printer
- Card stock
- Scissors
- Tape or Glue
- Wire or flat wooden wreath frame

Instructions:

This seasonal snowflake wreath is just as beautiful as the flakes falling outside, and every bit as unique, too! To create a cool piece of décor, your elf will:

1. Print and cut out the seasonal snowflake wreath pieces. (Helpful hint: depending on the size of the wreath your Scout Elf makes, they may need to print out multiple copies of the wreath pieces.
2. Lay out the circles so they are overlapping and covering the wreath frame.
3. Tape or glue the pieces to the frame.
4. Sit nearby to watch you find their wintry wreath.
