

Elf-sized Oven

Materials:

- Color printer
- Card stock
- Scissors
- Double-sided tape

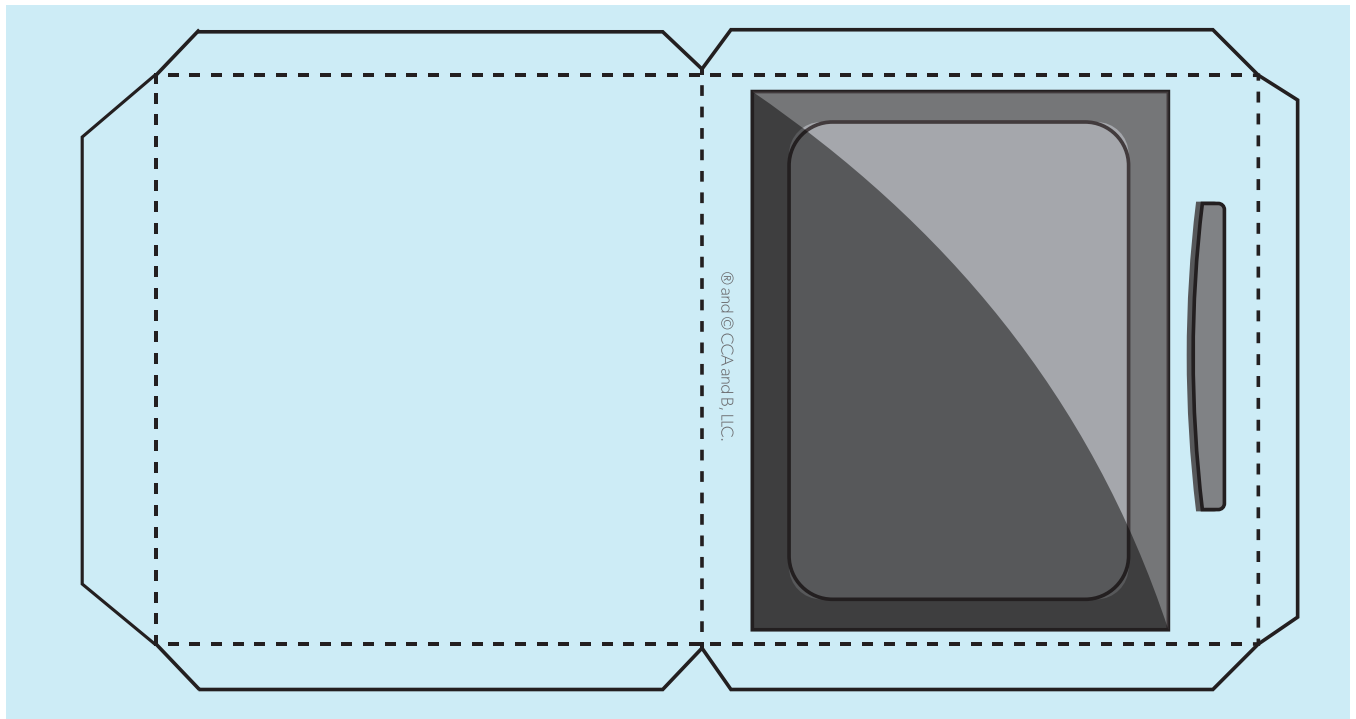

Instructions:

Batch of cookies, anyone? With their mini oven, your Scout Elf will bake up surprises just for you! To make a mini oven, your elf will:

1. Print and cut out the oven.
2. Lay the oven flat on a table with the blank side facing up, and fold each piece inward along the dotted lines. (Helpful hint: your elf will fold each piece into the middle, with the exception of the stove top, which will be folded the opposite way of every other piece.)
3. Starting with the smallest flaps near the oven's controls, tape each tab to the oven piece that it naturally touches. All tabs should be taped inside the oven.
4. Sit near the finished mini oven with a sweet surprise they baked up just for you!
