

Puzzle Day

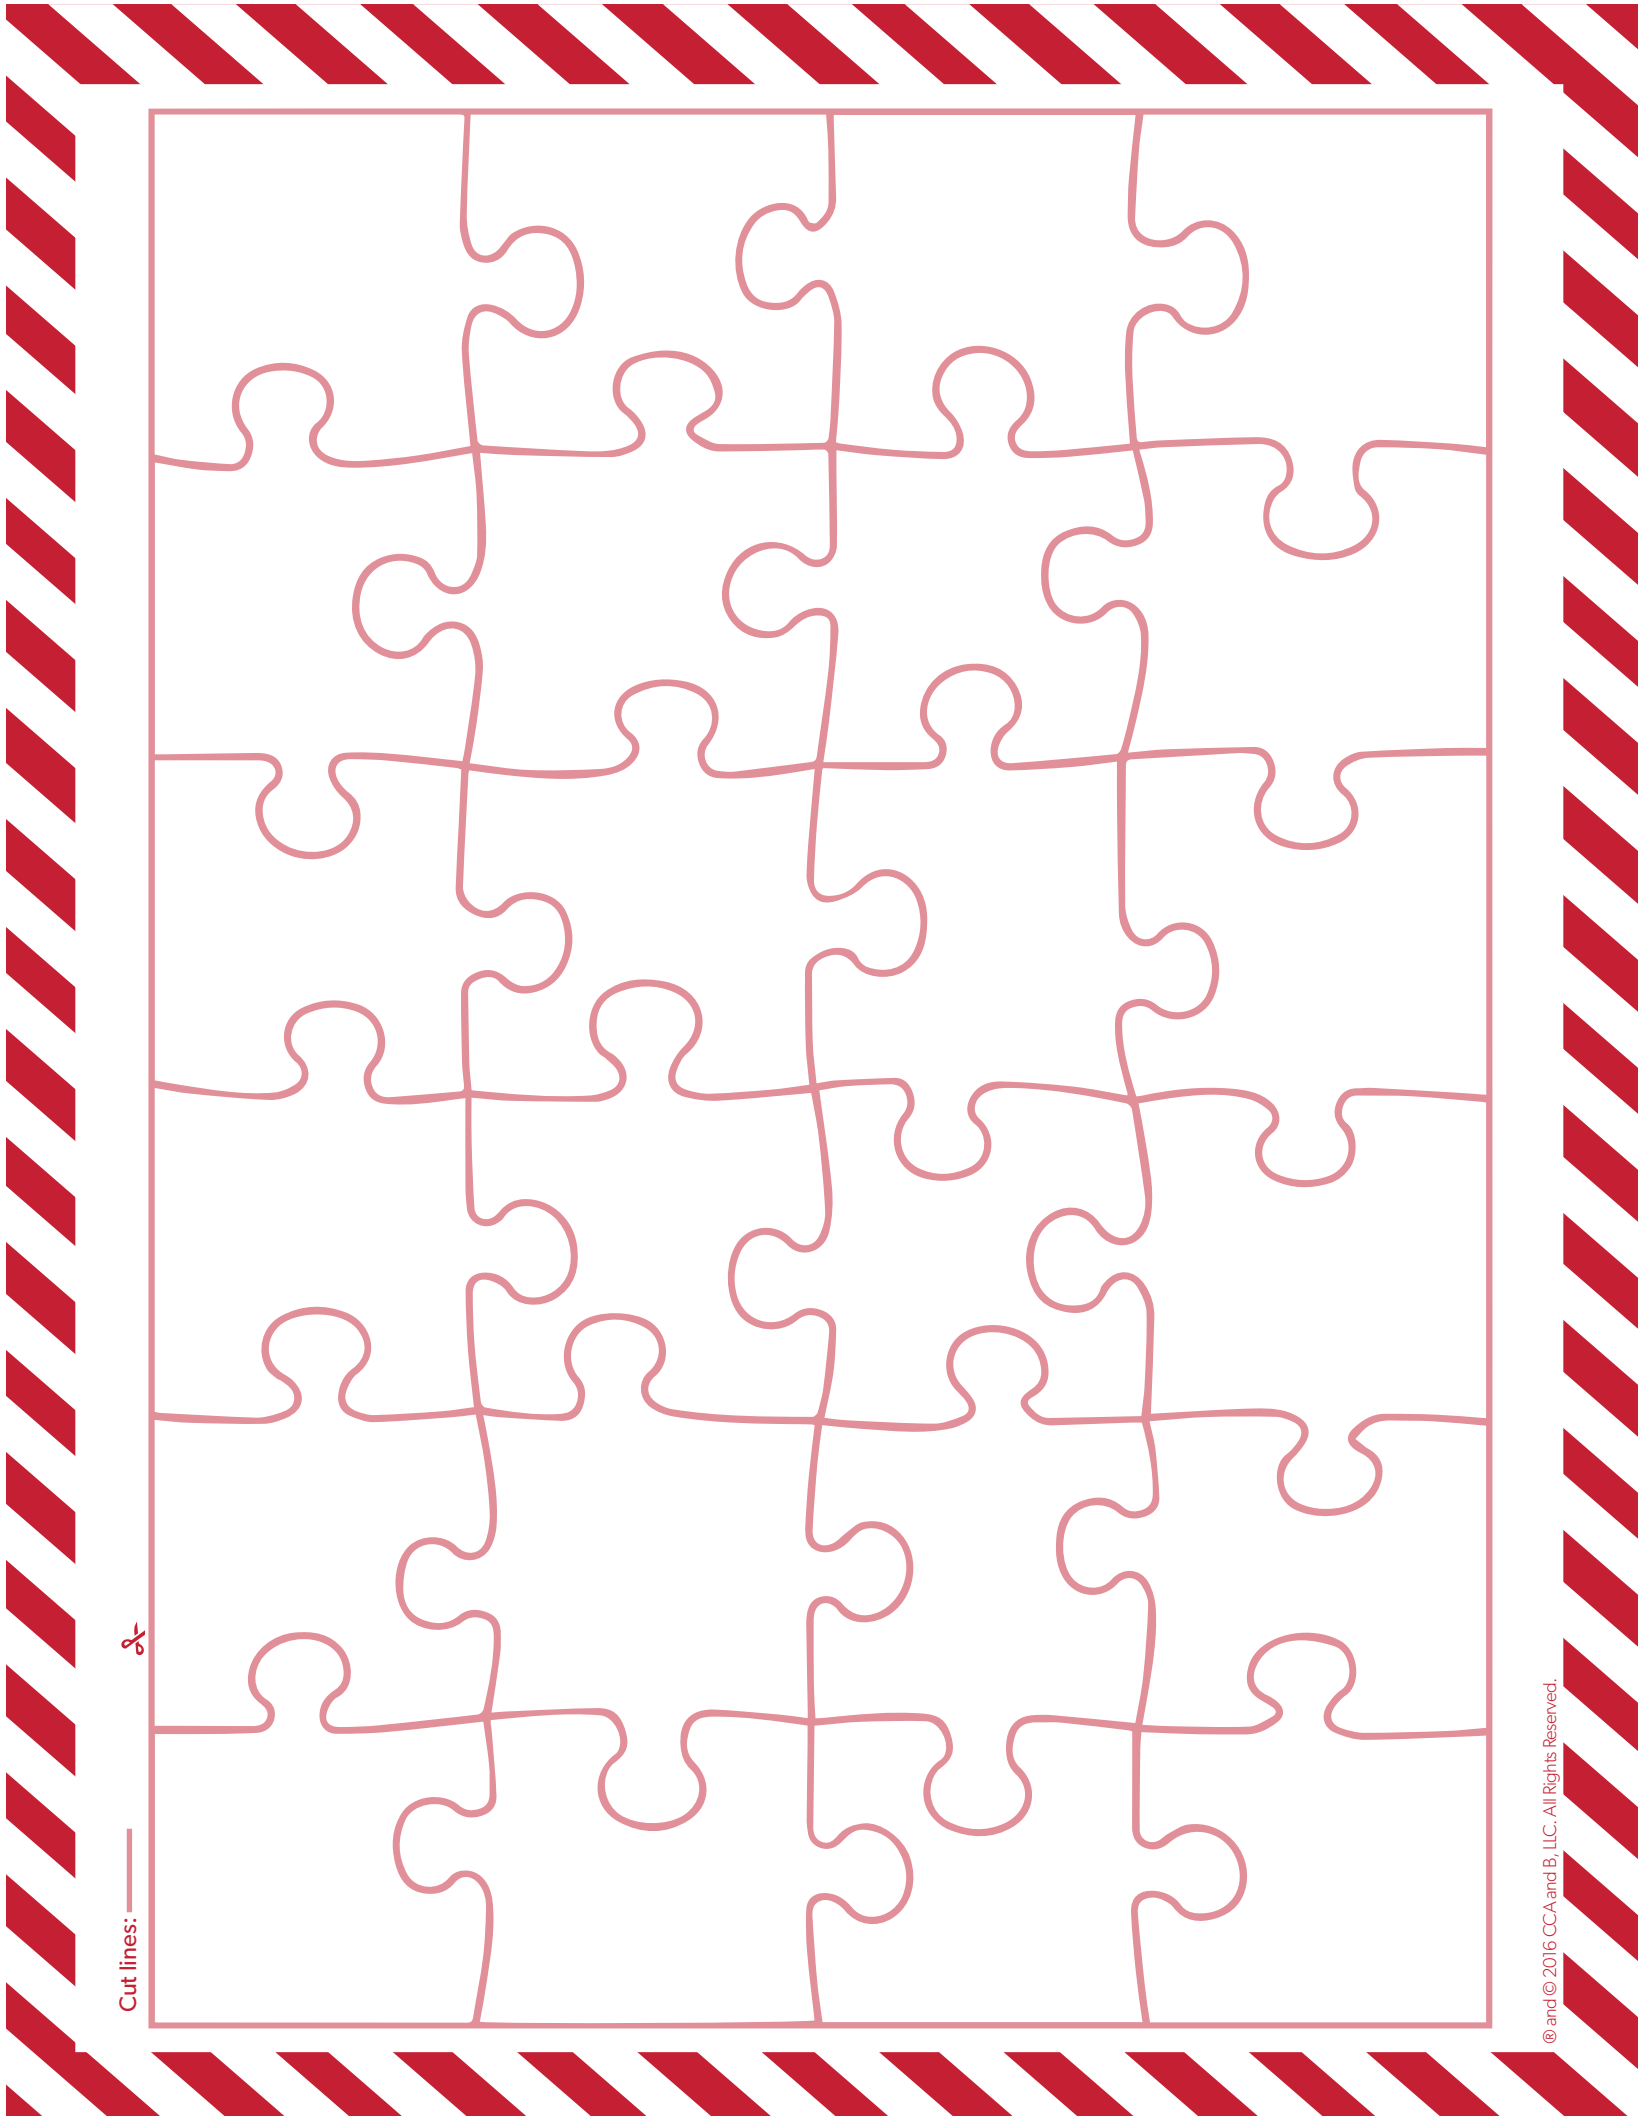

Materials:

- Picture (choose one you want to make into a puzzle!)
- Puzzle template
- Cardboard
- Precision cutter
- Glue

Instructions:

1. Print out the puzzle template on the next page (hint: you can use any size paper you desire).
2. Next, print out the picture that you would like to make into a puzzle. Make sure it is the same size as the puzzle template.
3. Glue the picture to a piece of cardboard. If the cardboard is larger than your picture, you will want to trim off the excess edges so that the cardboard and picture are the same size.
4. Once the picture has dried on the cardboard, flip the cardboard over and glue the puzzle template to the other side. Let it dry.
5. [Parents only] Use a box cutter or other precision cutter to cut along the bold lines of the template, making sure to cut all the way through the cardboard.
6. Once you have cut along each line, you will have all of your puzzle pieces. Mix them up, and let the fun begin!

Please remember that when attempting the craft included in this printable children should always be supervised by an adult. When using crafting supplies or products, always read manufacturer's instructions and warnings.
