

Flower Garlands

You'll Need:

Flower template
Cardstock
Scissors
Twine/String
Needle
Glue

Instructions:

- 1.) Print and cut out each shape on the following pages on cardstock. Print out as many pages as you need to create a garland of the desired length.
- 2.) To assemble the flower garland, stack the different shapes on top of one another to create unique flowers. Hold them together with glue and wait for them to dry. Next, string each flower onto the string using a needle and thread (parents only).
- 3.) Once you have strung all of the flowers onto the string, you're ready to hang your garland in a special place to enjoy all season long!
- 4.) Helpful hint: for a more durable garland, you may use the shapes included in this printable as stencils to cut out flowers made of felt.

Please remember that when attempting the craft included in this printable children should always be supervised by an adult. When using crafting supplies or products, always read manufacturer's instructions and warnings.
